

**EVE 486
Public Health**

**Homework #1
Due: 30 August, 2019**

1. Find an article in a newspaper or magazine that addresses an issue related to one of the four basic determinants of health (i.e., heredity, medical care, lifestyle, environment). Try to find an article that somehow impacts you on a personal level. Summarize the article in a few paragraphs and briefly discuss the personal impact. Staple a copy of the article to your homework submission.
2. Which global public health issue do you consider to be most important? Why? We will revisit this question a number of times throughout the term.
