

**EVE 486
Public Health**

HW#8

Due: Friday, November 01

1. Using our classroom discussions as a starting point, what do you consider to be the most significant public health problem? Be thoughtful and as quantitative as possible.
2. Discuss the impacts of population and poverty on public health. Compare/contrast the impacts from the global and national perspectives. Be as quantitative as possible.
3. Evaluate this statement (found on the United Nations website): *"The [Millennium Development Goals](#) were established in the year 2000 and include eight anti-poverty targets to be accomplished by 2015. Since then, enormous progress has been made towards achieving the MDGs."*
