

Project: a conservation plan for the Bert Adams Scout Camp.

Client: BSA

Contact: Dr. Kleio Avrithi for additional information

Email: avrithi\_k@mercer.edu

Tel: (478) 301-2410

This will need:

- A recognition of historical, biological, archaeological, cultural, and geological sites of special interest, and recommendations for their use and protection.
- Requirements for property boundary lines to be marked and maintained.
- Identification of the primary sources of ecosystem degradation (e.g., air pollution, water pollution, soil erosion, noise, etc)
- Identifying and harnessing energy sources in the camp
- Management of timberland, etc.

The project will involve several site visits to identify areas of improvements and collect the relevant data.

The deliverable will be a report.

The client will be; if students are interested, they will be giving me their contact information.

Disciplines: Environmental, Civil
