

## **Title: Desktop 3D Printing Filament Extruder**

Function: Extruding 1.75 mm particle filled filaments from thermoplastic materials such as PLA and ABS and Nano/micro-size particles.

Desired Disciplines:

- 2 Mechanical Engineering students
- 1 Electrical Engineering student

Contact Information:

Arash Afshar, Ph.D.

Assistant Professor of Mechanical Engineering

Director of Composite Materials Laboratory

Mercer University, 1501 Mercer University Drive, Macon, GA 31207

Office: EGC 105F

Phone: 478-301-2421
